

Edits to your Draft Congressional Map

Ethan Rothschild

to redistrictingcommittee

Greetings,

Drew Savicki (@drewsav) on Twitter managed to convert your draft Congressional map into a file on Dave's Redistricting program. I imported his file into my account on that program and edited it to improve your proposed districts 13, 17, 3, and 14. None are particularly drastic and should be easy to implement and I think it's something you should consider when making your final draft. Check it out here:
